Re: Ex Parte Notice, IBFS File No. SAT-LOA-20190704-00057; Call Sign S3051

Dear Ms. Dortch:

Representatives from Amazon met with Federal Communications Commission personnel on February 20, 2020, to reiterate Amazon's positions of record regarding its proposed Kuiper System.¹

During the meeting, Amazon asked the Commission to expeditiously grant the Application. Swift grant of the Application will help Amazon bring high-capacity, low-latency broadband to tens of millions of unserved and underserved consumers throughout the United States and around the world.

Amazon remains committed to coordinating in good faith and to ensuring that the Ka-band NGSO FSS operational environment allows existing authorization holders and future entrants to bring their important services to people everywhere.

Respectfully submitted,

/s/ **Mariah Dodson Shuman**
